

Andrija Mićunović

Summary

Passionate Full Stack Developer transitioning from design to development, with proven ability to build and deploy modern web applications. Combining practical coding experience with a strong design background to create efficient, scalable, and user-centric solutions. Experienced in modern JavaScript frameworks, and cloud deployment practices

Selected Projects

Goddess Within – E-Commerce Platform [Github](#) | [Live Demo](#)

Technical Environment: React, Node.js, MongoDB, Express, Docker, Nginx, GitHub Actions, Bootstrap

- Independently developed a comprehensive e-commerce platform using MERN stack, handling everything from architecture to deployment
- Built complex features including user authentication, payment processing, and inventory management
- Orchestrated containerized deployment using Docker, Nginx, and GitHub Actions CI/CD pipeline on VPS
- Implemented responsive UI with React Bootstrap, optimizing for both desktop and mobile experiences

Melody Mingle – Music Streaming Service [Github](#) | [Live Demo](#)

Technical Environment: Next.js, TypeScript, Supabase, PostgreSQL, Tailwind CSS

- Single-handedly architected and built a modern music streaming platform using Next.js, TypeScript, and Tailwind CSS
- Designed and implemented a scalable backend infrastructure using Supabase and PostgreSQL
- Developed sophisticated features including custom audio player, user library management, and playlist creation
- Created custom React hooks for complex audio playback and user preferences management

New Horizon – Real Estate Platform [Github](#) | [Live Demo](#)

Technical Environment: MERN Stack, Sass, Redux Toolkit, Docker, Nginx, Firebase, JWT

- Solo-developed a full-featured real estate platform using MERN stack with Redux Toolkit and Redux Persist
- Implemented complex features including property search, filtering, and real-time messaging system
- Integrated secure authentication system using JWT and Firebase with Google OAuth support
- Deployed using Docker containers on VPS with Nginx reverse proxy and GitHub Actions for automated deployment

📍 Belgrade, Serbia

Skills

Programming Languages

JavaScript (ES6), TypeScript, HTML, CSS/Sass, SQL

Libraries & Frameworks

React, React Native, Node.js, Express, Next.js, Redux, Styled Components, GSAP, Framer Motion, Tailwind CSS, Bootstrap

Database Management

MySQL, PostgreSQL, MongoDB

DevOps & Deployment

Docker, Nginx, GitHub Actions, VPS, Git, GitHub

Cloud & Platforms

Netlify, Vercel, Render, Firebase, Supabase, Webpack, Jest

Design

Figma, Photoshop, Illustrator, InDesign

Education

Computer Software Engineering

freeCodeCamp, 2022

Master Engineer of Wood Technologies

Faculty of Forestry, University of Belgrade, 2010

Certificates

Data Structures & Algorithms, Responsive Design

freeCodeCamp, 2022

Andrija Mićunović

Work Experience

Freelance Full Stack Developer (05/2022 — Present)

- Built full-stack web applications using MERN stack (MongoDB, Express.js, React, Node.js), implementing secure user authentication and payment processing systems
- Deployed and maintained applications using Docker containers, Nginx, and GitHub Actions CI/CD pipeline on VPS, achieving 99% uptime
- Developed responsive, mobile-first interfaces using React, Next.js, and modern CSS frameworks (Tailwind CSS, Bootstrap), improving cross-device compatibility
- Integrated third-party APIs and services including Firebase Authentication, payment gateways, and cloud storage solutions
- Migrated legacy WordPress sites to React-based solutions, resulting in 40% faster page load times and improved SEO rankings
- Collaborated with stakeholders to gather requirements and deliver solutions aligned with business objectives
- Created UI/UX designs and prototypes using Figma, ensuring seamless transition from design to development

Upwork

Industrial Designer | CAD | 3D Artist (08/2012 — Present)

- Maintained Top-Rated Plus status with 100% Job Success Score across 180+ projects, demonstrating strong project management and client communication skills - [View my profile](#)
- Consistently delivered high-quality solutions while meeting tight deadlines, maintaining a 95% on-time delivery rate

Interests

Web accessibility, photography, reading, gym, music, traveling, cooking, technology enthusiast
